For little princesses: the Ballerina Connector felt-tip pen box

For little girls who like nothing more than colouring in pictures of magical princesses or drawing imaginary worlds on paper, there is now the perfect colour set: the metal box with a ballerina design. It contains 33 Connector felt-tip pens, with which you can draw fine lines and shade in large areas. Thanks to the clips on the cap, the pens can also be joined together to make imaginative creations. The box also contains ten clips, two colouring cards and a booklet. Without a doubt – the Ballerina box is a perfect present, for example, as a little reward for that first wobbly bike ride or learning to swim, etc.
